# WELCOME TO HAYABUSA®

Legions of MMA fighters around the world trust Hayabusa® for their combat and apparel needs. Since day one, Hayabusa has been driven by an unwavering commitment to be superior in every aspect of performance – delivering an unmatched level of innovation and quality that has become the new Gold Standard in MMA.

The Japanese code of Bushido demanded each warrior craft their weapons and armor with a reverence and degree of workmanship unparalleled in any culture. Following in these very same footsteps, Hayabusa has embarked on the same legendary path – perfecting every innovation with the finest materials, state-of-the-art craftsmanship and an unwavering attention to detail. From a growing line of university tested equipment to world class fashion apparel, Hayabusa is setting a new standard in performance, quality and classic style to which there is no equal.

Whether it's fight night, training day or you're just looking to make a statement, you'll find everything you need in this catalogue. No other company possesses this same relentless commitment and passion to produce only the highest caliber products. This is the true feeling of precision engineering inspired by ancient tradition and modern technology.

**This is Hayabusa® – the true spirit of the fighter!**

# TOKUSHU™ SERIES

## COMBAT PERFORMANCE PROVEN BY SCIENCE

Introducing a clinically proven line of combat equipment. Produced and tested in state of the art research facilities, the tokushu™ series is the result of Hayabusa's commitment to quality, scientific research, and athletic performance.

Until recently, combat equipment has largely been neglected by the fight industry and overlooked by the scientific community. Recognizing this, Hayabusa understood the importance of partnering technology and science. Working with leading Universities, Hayabusa has uncovered the know-how, based on cutting edge scientific discoveries, to create a line of combat equipment that simply outperforms and surpasses all others.

The tokushu™ series – only from Hayabusa – pushes the threshold of combat equipment performance and injury prevention. With state of the art features and exclusive inner composites, the tokushu series is unlike anything ever created. Hayabusa's tokushu™ series is the result of Hayabusa's complete commitment to research and equipment performance. Befitting its name, the tokushu series is truly unique, and stands alone in the world of combat equipment.

Only the tokushu™ series gloves contain the state of the art Deltra EG™ inner core, shown to display the highest level of impact

characteristics for maximum performance and protection. The patent-pending Dual-X™ closure system and Fusion Splinting™ design proprietary to tokushu gloves are sophisticated designs that ensure perfect hand/wrist alignment, maximizing striking power and injury prevention. Vylar™ is a new cutting edge engineered leather that was proven in University research to be superior to other tested materials. The specialized Ecta™ carbonized bamboo lining in tokushu equipment delivers a comfort and quality that you only get with Hayabusa.

A true fighter respects the traditions of combat, but knows that today's science can provide the competitive edge needed to secure victory. Put your trust in Hayabusa's tokushu™ series – the only combat equipment proven by science.

BY ALIGNING THE WRIST IN THE MOST ANATOMICALLY FAVORABLE POSITION, **DUAL-X HELPS YOU MAXIMIZE THE AMOUNT OF POWER THAT COMES THROUGH YOUR FIST WHEN YOU STRIKE.**

### FUSION SPLINTING™ TECHNOLOGY

The clinically proven Fusion Splinting™ technology helps keep the hand in perfect alignment with the wrist and arm. Your wrist is prevented from bending in sub-optimal ways, ensuring you strike with maximum power and prevent injury.

### DELTRA-EG™ INNER CORE

Data from clinical studies at a leading research lab in a prestigious university revealed that the Deltra-EG inner core composite found in the tokushu™ series flawlessly manipulates impact energy, providing superior striking characteristics and protection. Deltra EG™ does not bottom out or degrade, and recovers from strikes instantly, so you are always protected.

### DUAL-X™ CLOSURE SYSTEM

The Dual-X™ Closure System provides maximum support to the delicate bones in the wrist. By aligning the wrist in the most anatomically favorable position, Dual-X helps you maximize the amount power that comes through your fist when you strike.

### VYLAR™

Research at the University of Cincinnati identified Vylar™ — a new high performance engineered leather material – as the ultimate outer equipment surface. From surface abrasion, flexibility, tear, and crack resistance, the test results are conclusive: Vylar™ simply outperforms the competition.

## OUR HAYABUSA TOKUSHU GLOVES:

- Developed from world-leading university research
- Ergonomic fit and feel for ultimate grappling and striking performance
- Patent-pending Dual-X™ and Fusion Splinting™ design
- Exclusive Engineered Leather Vylar™ for unmatched performance and durability
- Unique Ecta™ Activated Carbonized Bamboo Lining for ultimate comfort, thermo regulating properties and powerful deodorizing effects.
- Available in a variety of sizes to fit all size hands and personal preferences.

## 7 OZ HYBRID GLOVES

**Black:** Med T7HYG-BM, Lrg T7HYG-BL, XLrg T7HYG-BX **White:** Med T7HYG-WM, Lrg T7HYG-WL, XLrg T7HYG-WX

- Most versatile glove specially designed for all types of training
- Ergonomic fit and feel for ultimate grappling and striking performance
- Patented Dual-X™ Closure System for optimal wrist support and striking dynamics
- Exclusive Engineered Leather Vylar™ for unmatched performance and durability
- Unique Ecta™ Activated Carbonized Bamboo Lining for ultimate comfort, thermo regulating properties and powerful deodorizing effects

## 4 OZ MMA GLOVES

**Black/Grey:** Med T4MMAG-BSGM, Lrg T4MMAG-BSGL, XLrg T4MMAG-BSGX  
**White/Grey:** Med T4MMAG-WSGM, Lrg T4MMAG-WSGL, XLrg T4MMAG-WSGX

- Patented Dual-X™ Wrist Closure generates ultimate wrist support for maximum power and injury prevention
- Y-Volar™ design keeps the glove tight to the hand for maximum stability and fit
- Maximizes punching power by removing energy leaks
- Exclusive Engineered Leather Vylar™ for unmatched performance and durability
- Unique Ecta™ Activated Carbonized Bamboo Lining for ultimate comfort, thermo regulating properties and powerful deodorizing effects

## STRIKING SHINGUARD

**Black/Slate Grey:** Sm TSSG-BSGS, Med TSSG-BSGM, Lrg TSSG-BSGL, XLrg TSSG-BSGX  
**White/Slate Grey:** Sm TSSG-WSGS, Med TSSG-WSGM, Lrg TSSG-WSGL, XLrg TSSG-WSGX

- Developed from world-leading university research
- Lightweight high-resiliency inner core complex for maximum striking speed and power
- Unique non-slip lining keeps perspiration at bay to dramatically improve foot traction
- Double-back straps ensures zero shifting at even the greatest of impacts
- Now with 20% greater coverage for ultimate safety and performance
- Features extra wide foot loops for maximum positional stability and protection

## GRAPPLING SHINGUARD

**Black/Slate Grey:** Sm TGSG-BSGS, Med TGSG-BSGM, Lrg TGSG-BSGL, XLrg TGSG-BSGX  
**White/Slate Grey:** SM TGSG-WSGS, MED TGSG-WSGM, LRG TGSG-WSGL, XLRG TGSG-WSGX

- Developed from world-leading university research
- Lightweight high-resiliency inner core complex for maximum striking speed
- Ergonomic fit and feel for ultimate grappling performance
- Deltra-EG™ Inner Core Complex won't bottom out and recovers instantly
- Exclusive Engineered Leather Vylar™ for unmatched performance and durability

## HEADGEAR

**Black/White:** THG2-BSG **White/Slate Grey:** THG1-WSG

- Deltra-EG™ inspired inner core never bottoms out, providing superior cranial protection
- Scientifically tested to provide an optimal field of direct and peripheral vision
- Integrated High Shock Force™ Chin-Cup for a precise fit with full protection
- Featuring Vylar™ — the new cutting edge engineered leather clinically proven to be superior to other tested material
- Fully breathable open-top design and integrated ear covers
- Cranial-Cast™ lightweight construction for a perfect fit every time
- Patent pending T-Cross™ Design to prevent unwanted shifting

# KANPEKI ELITE™ SERIES

## OLD-WORLD DISCOVERY MEETS NEW-WORLD SCIENCE

Fashioned with the most exquisite full grain leather, and a battle-tested arsenal of technical innovations, each piece in this elite collection offers fighters unmatched functionality, durability and a distinctive classic elegance.

For the fighter who demands perfection at all costs and will stand for nothing less, Hayabusa proudly introduces the Kanpeki Elite™ series.

One look says it all; unrivaled performance, master craftsmanship, and immaculate quality. Hayabusa can proudly claim that with the Kanpeki Elite series, a new pinnacle in professional caliber combat equipment has come about. One that may never be surpassed!

The Kanpeki Elite series represents a true unrivaled fusion of old-world tradition and new-world scientific discovery. Witness the exquisite full grain premium leather that adorns each hand-designed and artisan-crafted element of this elite combat equipment line. From the look, touch, and even smell...no other line of combat equipment captures the overtones of battle equipment that harkens to days gone by, the way only Kanpeki Elite series can.

Yet, the traditional look and feel is but a veneer for the underlying scientifically conceived and tested design. Down to the finest engineering details, nothing has been left to chance. See the next page for a step-by-step description of each of the revolutionary technological innovations that together, create the Kanpeki Elite experience. The look is one of tradition, but the equipment is molded to provide unparalleled functionality, durability, and performance.

When the greatest fighters reach the highest peaks, they demand the greatest line of combat equipment. It's for these men and women that Hayabusa has created Kanpeki Elite.

Welcome to the summit!

## KANPEKI ELITE™ SERIES REPRESENTS A TRUE UNRIVALED FUSION OF OLD WORLD TRADITION AND NEW WORLD SCIENTIFIC DISCOVERY.

### PREMIUM 100% FULL GRAIN LEATHER

Is anything more elegant than the touch, smell and performance of the world's finest 100% full grain leather? It is something to be experienced, to be sure. That's why the Kanpeki Elite series uses only the finest leather to adorn these combat equipment pieces. Because only the best will do.

### FUSION SPLINTING™ TECHNOLOGY

The clinically proven Fusion Splinting™ technology helps keep the hand in perfect alignment with the wrist and arm. Your wrist is prevented from bending in sub-optimal ways, ensuring you strike with maximum power and prevent injury.

### DELTRA-EG™ INNER CORE

Data from clinical studies at a leading research lab in a prestigious university revealed that the Deltra-EG inner core composite found in the Kanpeki Elite series flawlessly manipulates impact energy, providing superior striking characteristics and protection. Deltra EG™ does not bottom out or degrade, and recovers from strikes instantly, so you are always protected.

### ECTA™ LINING

The Ecta™ lining in the Kanpeki Elite series contains an activated carbonized bamboo component for the ultimate in comfort. Ecta's thermo regulating properties and powerful deodorizing effects ensure you stay clean and dry.

### DUAL-X™ CLOSURE SYSTEM

The Dual-X™ Closure System provides maximum support to the delicate bones in the wrist. By aligning the wrist in the most anatomically favorable position, Dual-X helps you maximize the amount power that comes through your fist when you strike.

16 OZ GLOVES

Brown: K216G-BR

- Exquisite artisan-crafted 100% premium full grain leather
- Patent-pending Dual-X™ and Fusion Splinting™ design for injury prevention
- Fusion Splinting™ for ultimate wrist support and maximum striking power
- Deltra-EG™ Technology ensures superior glove impact performance
- Perfectly engineered for sparring training and heavy bag work

4 OZ MMA GLOVES

Brown: Med K24MMAG-BRM, Lrg K24MMAG-BRL, XLrg K24MMAG-BRX

- Exquisite artisan-crafted 100% premium full grain leather
- Patent pending Dual-X™ closure system for optimal wrist support and striking dynamics
- Deltra-EG™ Technology ensures superior glove impact performance
- Y-Volar™ design keeps the glove secure for maximum stability and responsiveness
- Perfectly engineered for the most demanding MMA combat

KANPEKI ELITE™ HEADGEAR

Brown: K2HG-BR

- Exquisite artisan-crafted 100% premium full grain leather
- Scientifically measured design ensures perfect peripheral vision
- Deltra-EG™ inspired inner core never bottoms out, providing superior cranial protection
- Integrated High Shock Force™ Chin-Cup for a precise fit with full protection
- Fully breathable open-top design and integrated ear covers
- Cranial-Cast™ lightweight construction for a perfect fit every time
- Patent-pending T-Cross™ Design to prevent unwanted shifting

STRIKING SHINGUARDS

Brown: Sm K2SSG-BRS, Med K2SSG-BRM, Lrg K2SSG-BRL, XLrg K2SSG-BRX

- Exquisite artisan-crafted 100% premium full grain leather
- Engineered for the advanced fighter to perfect striking technique
- Duo hook-and-loop closure system offers maximum breathability and comfort
- Superior stability for zero shifting and pinpoint accuracy
- Generously thick performance ridges and ergonomically-inspired upper shin design for maximum mobility
- Exclusive mid-joint protection and triple layered instep padding for unrivaled injury prevention

GRAPPLING SHINGUARDS

Brown: Sm K2SG-BRS, Med K2SG-BRM, Lrg K2SG-BRL, XLrg K2SG-BRX

- Exquisite artisan-crafted 100% premium full grain leather
- Engineered for the advanced fighter for seamless adaptation to all combat styles
- Fully breathable fullback design provides superior stability for zero shifting and pinpoint accuracy
- Generously thick performance ridges and ergonomically-inspired for maximum mobility and striking precision
- Exclusive mid-joint protection and triple layered instep padding for unrivaled injury prevention
- Innovative closure system with no exposed hooks or loops for easy fight style transition
- Patent-pending design

# IKUSA™ SERIES

## COMPLETE LINE OF PERFORMANCE EQUIPMENT

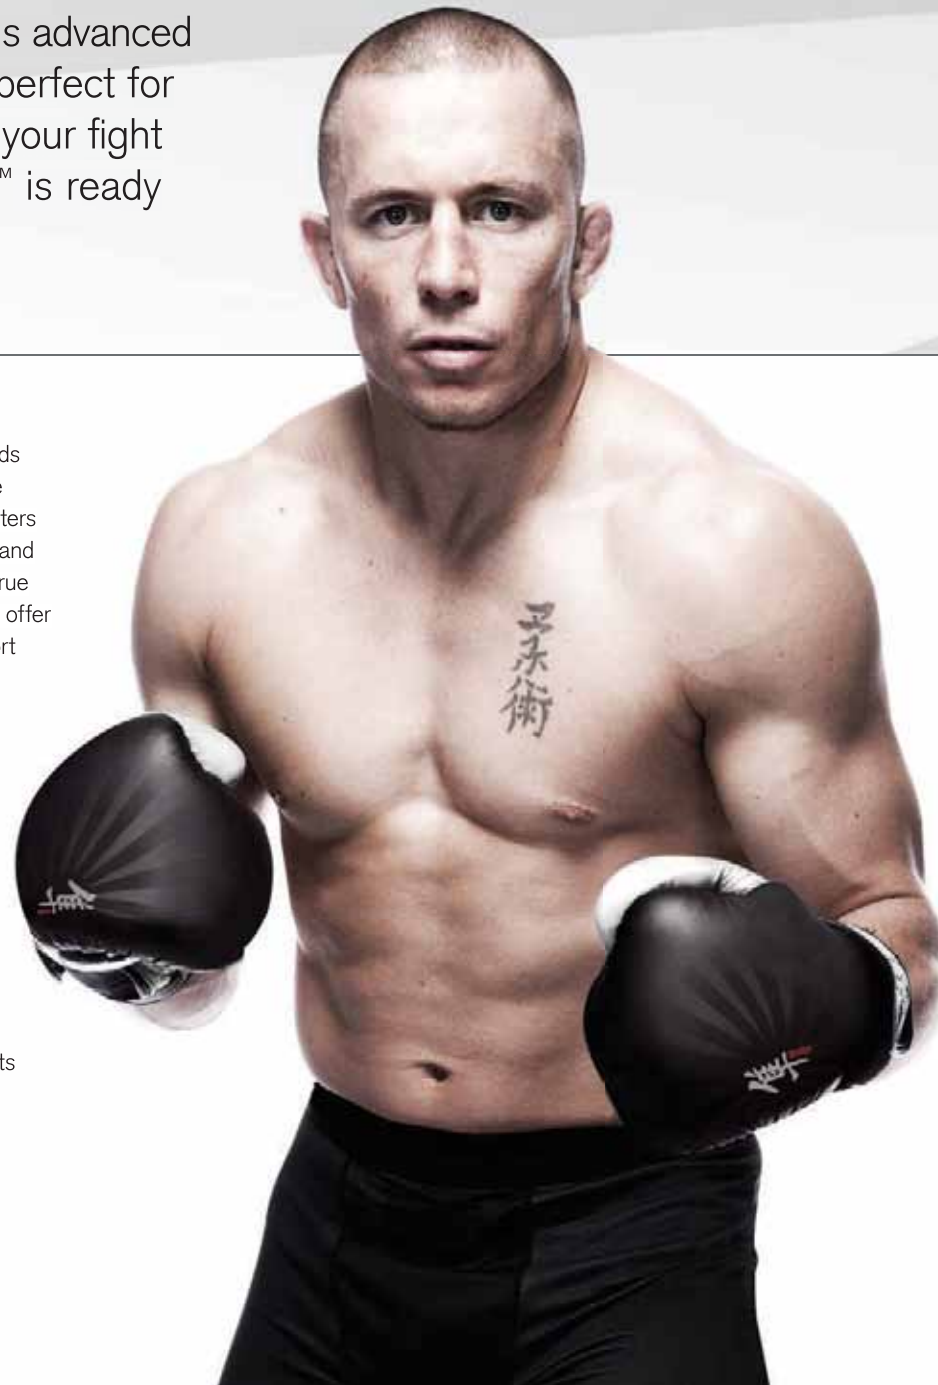

Providing an unmatched variety, this advanced line of performance equipment is perfect for every level of fighter. Whether it's your fight night or just a training day, Ikusa™ is ready for your war!

When the time for talk has come and gone and only war stands between a fighter and immortality, choose one brand and one brand only – Ikusa™, only from Hayabusa®. For though all fighters must go to war, each fighter should have only the best armor and equipment at their disposal. Following the same path as any true warrior, Hayabusa has engineered the Ikusa combat series to offer the perfect combination of performance, durability and comfort whether it's fight night or training day, for beginner or professional.

Ikusa fuses the best in technologically advanced combat equipment engineering to create a line that provides superior performance, fit, durability and style. Built for every fighter – be it professional or beginner – the Ikusa line can stand up to whatever the fight brings.

Powered by the technology you've come to expect from Hayabusa, such as Dual X closure system, Deltra EG technology and Ecta lining, Ikusa starts where other inferior combat equipment ends. Feel the power of science as it meets the tradition and respect befitting the warrior code. Stand tall and be recognized as part of the brotherhood of combat.

[Join the war...join Ikusa™!](#)

### DELTRA-EG™ INNER CORE

Data from clinical studies at a leading research lab in a prestigious university revealed that Ikusa's Deltra-EG inner core composite flawlessly manipulates impact energy, providing superior striking characteristics and protection. Deltra EG™ does not bottom out or degrade, and recovers from strikes instantly, so you are always protected.

### DUAL-X™ CLOSURE SYSTEM

The Dual-X™ Closure System provides maximum support to the delicate bones in the wrist. By aligning the wrist in the most anatomically favorable position, Dual-X helps you maximize the amount power that comes through your fist when you strike.

### ECTA™ LINING

The Ecta™ lining contains an activated carbonized bamboo component for the ultimate in comfort. Ecta's thermo regulating properties and powerful deodorizing effects ensure you stay clean and dry.

## OUR IKUSA GLOVES:

- Superior to regular gloves for performance and protection
- Patent-pending Dual-X™ for ultimate wrist support and maximum striking power
- Deltra-EG inner core for superior striking characteristics
- 100% engineered leather and exclusive inner lining for perfect fit and feel
- Ecta™ inner lining keeps your hands cool and dry

### 16 OZ GLOVES

## 7 OZ HYBRID GLOVES

**Black:** Sm I7HYG-BS, Med I7HYG-BM, Lrg I7HYG-BL, XLrg I7HYG-BX  
**White:** Sm I7HYG-WS, Med I7HYG-WM, Lrg I7HYG-WL, XLrg I7HYG-WX

- Hybrid 7oz gloves allow for cross-training
- Patent-pending Dual-X™ for ultimate wrist support and maximum striking power
- Y-Volar™ design keeps the glove tight for maximum stability and responsiveness
- Featuring Vylar™ and exclusive inner lining for moisture wicking, perfect fit and feel

## 4 OZ MMA GLOVES

**Black:** Sm I4MMAG-BS, Med I4MMAG-BM, Lrg I4MMAG-BL, XLrg I4MMAG-BX  
**White:** Sm I4MMAG-WS, Med I4MMAG-WM, Lrg I4MMAG-WL, XLrg I4MMAG-WX

- 4oz regulation weight MMA gloves for advanced competition
- Patent-pending Dual-X™ for ultimate wrist support and maximum striking power
- Y-Volar™ design keeps the glove tight for maximum stability and responsiveness
- Featuring Vylar™ and exclusive inner lining for moisture wicking, perfect fit and feel

## HEADGEAR

**Black:** IHG-B

- Cranial-Cast™ lightweight construction ensures a unique, customized fit, with zero bulk
- High-resiliency inner core complex for optimal shock absorption
- Integrated ear hole covers and open top design for maximum ventilation
- Hybrid design for excellent peripheral visibility and complete face protection
- Patent-pending closure system

## FOCUS PADS

**Black:** IFM-B

- Ultra-lightweight construction for maximum maneuverability and protection
- Optistrike™ Pro-Concave technology provides a perfect striking surface every time
- Counter-Force™ padding for superior impact absorption and hand and wrist protection
- Engineered with a form fitting, pre-curved, molded design for unmatched fit, feel and comfort

## THAI PADS

**Black:** ITP-B

- Custom engineered inserts for maximum forearm protection
- Extra thick, high-impact inner core for unmatched shock absorption and shape retention
- Super reinforced striking zones for unparalleled durability
- Quadruple riveted Comfort ErgoGrip™ stabilizer and duo hook-and-loop closure system ensure a secure fit

## SHINGUARDS

**Black:** Sm ISG-BS, Med ISG-BM, Lrg ISG-BL, XLrg ISG-BX  
**White:** Sm ISG-WS, Med ISG-WM, Lrg ISG-WL, XLrg ISG-WX

- Designed for all types of combat training
- Breathable fullback design and innovative closure system for the ultimate fit with zero shifting
- Provides maximum protection and optimal mobility
- Ergonomically engineered curvature delivers the perfect striking and grappling surface

# PRO TRAINING SERIES™

## DEVELOPED BY “THE COACHES” FOR COACHES

Hayabusa's Pro Training Series™ is the first and only state of the art professional line of performance striking pads tailored specifically to maximize striking technique, power and speed.

When Hayabusa began developing a series of 'coach's equipment', the goal was clear: An uncompromising premium line of coaching equipment designed to the profession's exacting and unwavering standards...standards matched only by Hayabusa's own. Working with the industry's premiere striking coaches gave Hayabusa engineers the insight to design and develop the Pro Training Series™, which was geared specifically towards the unique needs of the professional striking coach.

The Hayabusa Pro Training Series is the pinnacle in professional coach and training gear. The Pro Training Series was developed to be the first and only state of the art professional line of performance striking pads tailored specifically to maximize striking technique, power and speed. Due to their technical nature, this is the most specialized line of training equipment ever created and will push your striking performance to new heights.

Share in the wisdom and teachings of the industry's best coaches. Bring all that the Pro Training Series has to offer to the gym today and experience true growth in the tradition of the warrior.

**DUE TO THEIR TECHNICAL NATURE, THIS IS THE MOST SPECIALIZED LINE OF TRAINING EQUIPMENT EVER CREATED AND WILL PUSH YOUR STRIKING PERFORMANCE TO NEW HEIGHTS.**

BODY PROTECTOR

Yellow/Black: PTCP-B

- Precise multi-organ shield with additional abdominal and liver protection
- V-Spine for maximum adjustability to fit all body types and sizes
- True-Fit™ shoulder strap provides 360 degrees of unrestricted shoulder movement
- Angled hip line for lower body protection and unimpeded leg range of motion

MICRO MITTS

Yellow/Black: PTMM-B

- Ultra compact, lightweight design for flawless maneuverability and maximum control
- Guaranteed to increase striking precision, power, and speed
- Exclusive air dome™ proprietary core for unmatched impact absorption
- Inner glove design with non slip palm surface for ultimate stability and secure fit

KICK SHIELD

Yellow/Black: PTKS-B

- High intensity inner core ensures optimal striking feel and responsiveness
- Multi-reinforced handles for maximum kicking versatility and training variety
- Pro concave design for the most intense performance striking
- Ultimate impact absorption maximizes comfort and ease of holding

CURVED THAI PADS

Yellow/Black: PTCTP-B

- Only design to ensure 100% flush hand and forearm alignment for a comfort never before attained
- True curved impact zone for the most intense striking
- Dual forearm performance stabilizer for the ultimate secure fit
- Microfiber spine ensures zero slippage and maximum comfort

# INTRODUCING PERFORMANCE SHORTS A NEW CLASS OF FIGHT SHORTS

Your fight shorts are a true extension of you, as a fighter. The style speaks to your spirit; the technology lets your training shine through uninhibited, allowing you to unleash controlled fury without fear that your shorts will underperform. Choosing the right short is never to be taken lightly. That's why the product development engineers at Hayabusa® have developed several different styles of fight shorts using Hayabusa's exclusive fabrics. A true warrior needs shorts that mold to his or her unique fighting style.

First and foremost, all Hayabusa shorts are designed to withstand the stress and the stretching it takes to win. All of our shorts feature split seams at the bottom of the leg, with extra reinforcement, to ensure an unmatched degree of freedom in movement and flow – be it on your feet striking, or on the mat grappling. Finally, our shorts feature flex panels – strategically located high-tensile stretch materials for better mobility, be it in battle or just warming up.

Choose the fight short that's right for you – Flex, Kasumi-S, Weld3, or Chikara – and express your own individual style to the fight world with a short designed to stay with you, step for step.

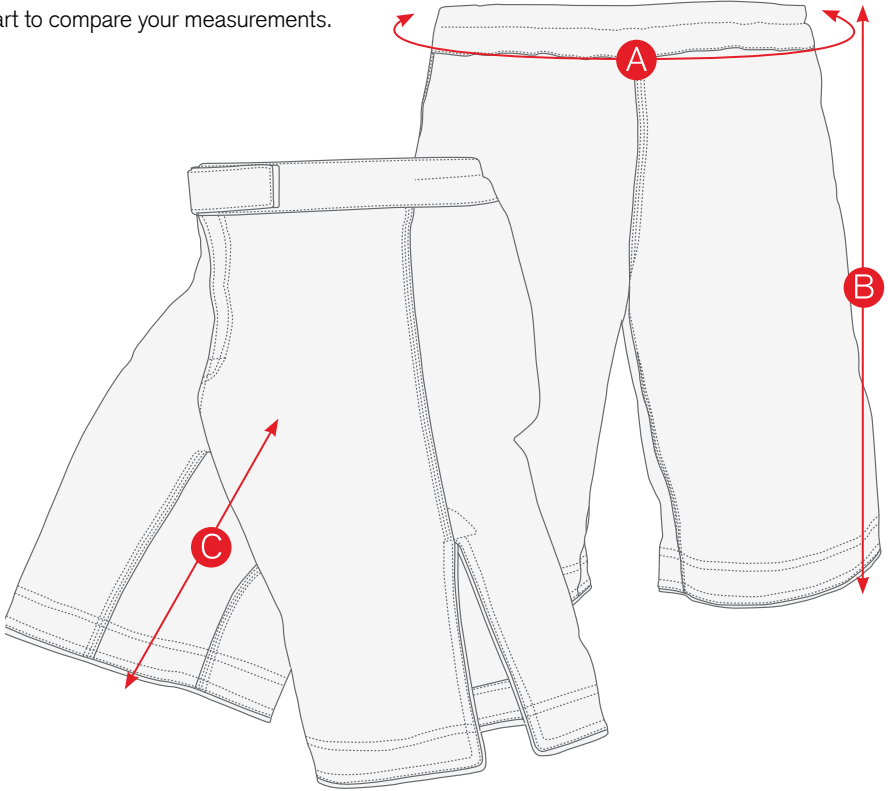

## Fight Short Measurements

To estimate the size you need please use the following chart to compare your measurements.

- A** Waist measurement
- B** Length Measurement
- C** Inseam Measurement

Please note that this guide is an estimate only, and cannot account for individual preferences.

Size	Waist (A)	Length (B)	Inseam (C)
30	30"	20"	9.5"
32	32"	21"	10"
34	34"	22"	10.5"
36	36"	23"	11"
38	38"	24"	11.5"

FLEX™ FIGHT SHORTS

**Black:** XSm FXFS-B30, Sm FXFS-B32, Med FXFS-B34, Lrg FXFS-B36, XLrg FXFS-B38, XXLrg FXFS-B40  
**White:** XSm FXFS-W30, Sm FXFS-W32, Med FXFS-W34, Lrg FXFS-W36, XLrg FXFS-W38, XXLrg FXFS-W40

- Absolutely zero hardware or Velcro
- Innovative X-shaped stretch gusset for maximum flexibility
- Extreme stretch fabric for pure, fluid body mechanics
- Ultra-lightweight for ultimate maneuverability and comfort
- Inner drawstring for an accurate customized fit every time

NEW

KASUMI-S™ FIGHT SHORTS

**Black:** XSm KSSFS-B30, Sm KSSFS-B32, Med KSSFS-B34, Lrg KSSFS-B36, XLrg KSSFS-B38, XXLrg KSSFS-B40

- Engineered Flyweight Fabric™ yields unbelievable shear strength
- Unique mid-thigh architecture with side-split design ensures complete freedom of movement
- Ultimate low-profile fit and extreme comfort
- Inner drawstring for an accurate customized fit every time

NEW

WELD3™ PERFORMANCE SHORTS

**Black:** XSm W3FS-B30, Sm W3FS-B32, Med W3FS-B34, Lrg W3FS-B36, XLrg W3FS-B38, XXLrg W3FS-B38  
**Grey:** XSm W3FS-G30, Sm W3FS-G32, Med W3FS-G34, Lrg W3FS-G36, XLrg W3FS-G38, XXLrg W3FS-G40  
**Blue:** XSm W3FS-BL30, Sm W3FS-BL32, Med W3FS-BL34, Lrg W3FS-BL36, XLrg W3FS-BL38, XXLrg W3FS-BL40

- World's first and only welded fight short
- Patent-Pending revolutionary design
- Flat-Welded seams and sleek hem finish for maximum comfort
- Silicon non-slip waist ensures shorts and shirts stay securely in place
- Fiber-Fused graphics for extreme durability

CHIKARA™ PERFORMANCE SHORTS

**Black:** XSm CFS-B30, Sm CFS-B32, Med CFS-B34, Lrg CFS-B36, XLrg CFS-B38

**Grey:** XSm CFS-G30, Sm CFS-G32, Med CFS-G34, Lrg CFS-G36, XLrg CFS-G38  
**Green:** XSm CFS-GR30, Sm CFS-GR32, Med CFS-GR34, Lrg CFS-GR36, XLrg CFS-GR38

- Innovative tie system with indestructible webbing for a distinct customized fit
- Features the exclusive Mechanical PolyDirectional™ stretch fabric
- High tensile strength stretch panel and side split seams for unrestricted range of motion
- Contains Hayabusa's Guardlock™ inner grip waistband system
- Reinforced T3 stitching for ultimate strength and durability
- Permanent fiber fused designs
- Available in black, blue, red, grey and green

THE WORLD'S PREMIER LINE OF FIGHT SHORTS.

# RASHGUARDS

## THE LATEST IN COMPRESSION PERFORMANCE

Experience the ultimate in combat thermoregulation. Guard against cuts, scrapes and rashes with Hayabusa, the latest in rashguard technology.

WELD3  
TECHNOLOGY

The rashguard, at its most simple level, was originally conceived to do one thing – protect your arms and torso from the skin tearing and chafing effects of ground work in the ring and on the mat. But we recognize that a rashguard can, and should be, so much more to a fighter. Your rashguard should be a seamless extension of your body and should provide benefits and features far and above simple protection from abrasion. That's where Hayabusa has distanced itself from inferior rashguards. Our rashguards don't just look the part, they play the part!

First off, consider our use of flatlock stitching. Many fighters learn only too late that the stitching in an inferior rashguard can cause more damage than even a ring! By using flatlock stitching, we ensure the stitching holds the garment together without tearing through your skin!

What's more, consider the Thermawick™ technology in our rashguards. Thermawick™ technology helps keeps your body dry; because we all know perspiration can drastically affect your grip on your opponent. Thermawick™ also helps keep your muscles warm, because a warm muscle is less likely to strain or tear and is more flexible, enabling you to get out of locks and holds with greater ease.

Finally, Hayabusa® uses specialized high tensile performance fabrics in its rashguards to provide strong antimicrobial effects and skin coverage. After all, you don't win fights when you're side-lined fighting a skin infection! Of course, though you may not be worried about skin infections, you can also rest easy knowing the anti-microbial properties in our rashguard helps keep the garment smelling fresh and clean.

**The style and design of our rashguards conveys the spirit of the Hayabusa way...tradition, honor and respect. Wear your spirit with pride!**

**YOUR RASHGUARD SHOULD BE A SEAMLESS  
EXTENSION OF YOUR BODY AND SHOULD PROVIDE  
BENEFITS AND FEATURES FAR AND ABOVE SIMPLE  
PROTECTION FROM ABRASION.**

### Rashguard Measurements

To estimate the size you need please use the following chart to compare your measurements.

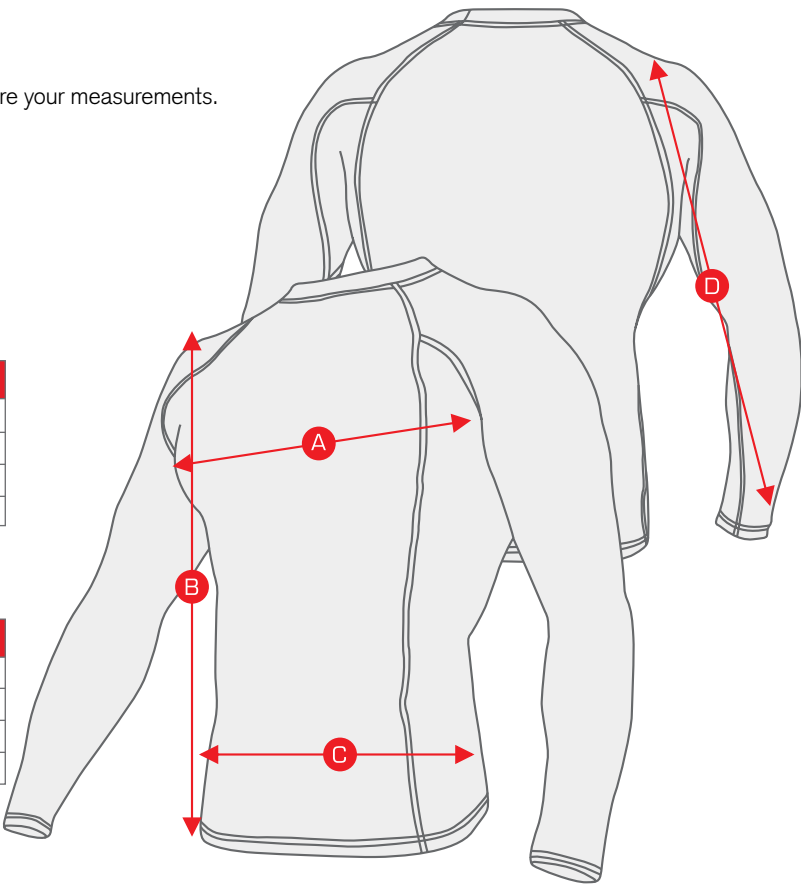

- A Chest measurement**
- B Length Measurement**
- C Waist Measurement**
- D Sleeve Measurement**

Please note that this guide is an estimate only, and cannot account for individual preferences.

Size	Chest (A)	Lenght (B)	Waist (C)	Sleeve (D)
S	21"	25"	16"	20"
M	22"	26"	17"	21"
L	22.5"	27"	17.5"	22"
XL	23.5"	28"	17"	23"

Size recommendation

Size	Weight	Height
S	<155lbs	<5'8"
M	156lbs - 175lbs	5'9" - 5'11"
L	176lbs - 200 lbs	6' - 6'2"
XL	>200lbs	>6'2"

METARU 47™ RASHGUARD

- Unbelievable strength & comfort
- Tough, lightweight and breathable fabric
- Designed for high level training
- Performance hybrid collar
- Sleek integrated mouthguard pocket

# COMPRESSION WEAR

## TECHNOLOGICALLY ADVANCED COMPRESSION PERFORMANCE

**HABURI™**  
COMPRESSION LINE

Your training and fighting goal is to maximize performance enhancement, so you're no stranger to the powers of compression clothing. An elite compression garment starts by helping to keep the muscles warm to prevent muscle strain and fatigue. Furthermore, the right compression wear can wick sweat away from the body to prevent chafing and rashes. If that's not enough, scientific evidence is emerging showing that fighters can actually derive performance enhancing benefits with compression wear.

For example, did you know that compression wear can help support the body with the following?

- Improve athletic performance (as measured by repeated jump performance)
- Reduce muscle vibration and focus the direction of the muscle for more powerful movement
- Reduce the build-up of creatine kinase in the muscle (an indicator of muscle tissue damage)
- Reduce muscle soreness during post-workout recovery and reduce the time it takes for muscles to repair themselves

Clearly, any fighter worth his or her salt is looking into how to use compression wear to perfect their fight performance. And that's where Hayabusa stands tall. The Hayabusa Haburi™ Compression line was created for elite athletes who are looking for maximum

performance and premium comfort. The ultra-soft Thermawick™ fabric enhances muscle performance and makes these the most comfortable compression products in this category. The integrated Guardlock™ waistband and cuffs are excellent features to prevent shifting. Best of all the Haburi™ Compression shorts and pants have an integrated pocket to perfectly stabilize Hayabusa's ExoForged™ Armored Cup. Perfect on their own or under a pair of Hayabusa Fight Shorts!

**Don't take chances with your compression wear....  
because only the best will do!**

**THE HAYABUSA HABURI™  
COMPRESSION LINE WAS  
CREATED FOR ELITE ATHLETES  
WHO ARE LOOKING FOR  
MAXIMUM PERFORMANCE  
AND PREMIUM COMFORT.**

- Available in black and red, with the Croatian Coat of arms pattern imposed on the leg

# HAYABUSA® JIU-JITSU GI

THE FINEST IN TRADITIONAL JIU-JITSU GI  
DESIGN MEETS THE FUTURE IN ADVANCED  
GI TECHNOLOGY

Hayabusa® believes that the true martial artist understands the disciplines of honor, respect and tradition. Without these tenets, the artist cannot progress. We also believe that a fighter's gi should embody this same spirit. The gi is the extension of the fighter's body and mind. It becomes part of his fight strategy and must perform with exacting precision. It mustn't break, but must be flexible. It must be durable, yet still be comfortable. It must stand up to the rigors of the most grueling performances time and again without wavering. After all, you demand as much from yourself. Shouldn't your gi do the same? We believe so, and that's why we proudly stand behind our line of traditionally conceived, yet advanced designed gis.

Your Hayabusa Jiu-Jitsu Gi is engineered with the first ever ultra-light, Triple-Weave fabric to bring you the ultimate lightweight gi that delivers heavyweight performance and durability! Combine that

with triple reinforced stitching, seamlessly integrated reinforced fabric zones, plus unique Triple-Weave pants, with stretch inseams, and you have a gi that offers a truly unique array of top-tier technical benefits.

**Choose the traditional look of the Pro Jiu Jitsu gi, or the more modern-influenced Mizuchi™ Gi. Let your spirit and style guide you. And fight with confidence, knowing you have the most advanced gi fighting alongside you!**

**YOUR HAYABUSA® JIU-JITSU GI IS ENGINEERED WITH THE FIRST EVER ULTRA-LIGHT, TRIPLE-WEAVE FABRIC TO BRING YOU THE ULTIMATE LIGHTWEIGHT GI THAT DELIVERS HEAVYWEIGHT PERFORMANCE AND DURABILITY!**
